## ARMISTICE TERMS STRIP AUSTRIA OF MILITARY POWER

Call For Cessation of Hostilities, Demobilization of Army, Evacuation of All Invaded Territory, Withdrawal of German Troops From Italian and Balkan Fronts and Austro-Hungarian Territory, and Disposition of all Naval Equipment.

### GIVE SOME IDEA OF TERMS FOR GERMANY

(By United Press)

Washington, Nov. 4.—Complete, effective surrender of Austria-Hungary is provided by the United States-allied armistice terms, now operative and made public by the state department today.

The terms, stripping her of her last shred of military power, provide for:

Cessation of hostilities.  
Demobilization of the army.  
Delivery to allies of half of the enemy artillery and equipment.  
Opening of the Adriatic and the Danube to the allies.

Allied occupation of Danube ports and the Pola naval base.

Concentration of aircraft at designated points to be supervised by the allies.

Evacuation of all invaded territory.

Withdrawal of all Austrian troops from the west front.

Use by allies of roads, rail and waterways, in Austria-Hungary.

Withdrawal of all German troops within fifteen days, not only from the Italian and Balkan fronts, but from all Austro-Hungarian territory.

Surrender of fifteen Austro-Hungarian submarines and of all German submarines in Austrian waters. All other submarines are to be disarmed and remain under supervision of the allies.

Surrender to the allies with their complete armament and equipment three battleships, three light cruisers, nine destroyers, twelve torpedo boats, one mine layer and six monitors.

All other warships are to be concentrated at naval bases, disarmed and placed under supervision of the allies.

These terms and others put an iron clamp on Austria. From them may be deduced the nature of terms to be meted out to Germany, it was stated authoritatively today. Germany will have to meet requirements equally as strong in the matter of demobilization, surrender of material, surrender of submarines and warships, and occupation of strategic points.

### Kaiser to Refuse Armistice.

Paris, Nov. 4.—The reichstag group will confer today and tomorrow for the purpose of arriving at a decision on the question of the Hohenzollern dynasty, says a Zurich dispatch.

The German press believes that the kaiser and military headquarters propose to refuse the terms of the armistice while the civil government is inclined to accept them. The tension between these two is strained.

### Food Blockade Against Germany.

Geneva, Nov. 4.—The Hungarians have declared a food blockade against Germany, in an effort to hasten peace, it was reported in dispatches received here today. All railway and boat traffic to Germany has been stopped. The blockade holds up about 20 thousand tons of foodstuff and large quantities of petroleum and prevents the return of two German divisions.

A Vienna dispatch says German

soldiers and sailors passing through the city have been disarmed.

### Suggests Penalty For Delay.

London, Nov. 4.—Pacific penalty for every day the war is prolonged after the allies submit the armistice terms to Germany, with consequences definitely worse for the enemy if she fails to recognize the armistice as an ultimatum, is the explanation of the Sunday Observer as a means of letting Germany know there will never be an abatement of the severity of the present allied terms.

## 3 POUNDS A MONTH NEW SUGAR RATIONS

Increased Allowance for Individual Consumers and Hotels and Restaurants Announced.

### MANUFACTURERS THE SAME

Notice was issued today by the United States food administration, in Indiana, Dr. Harry E. Barnard, administrator, that certificates for increased allowances of sugar for November and December would be supplemented fifty per cent to take care of the increased allotment announced in Washington. Hereafter individual consumers will be rationed on a basis of three pounds per month and public eating houses allowed on a basis of three pounds for each ninety meals served. The allowance since October 1 has been two pounds in each case.

The certificates to public eating houses and retailers in Indiana, amounting to many thousands, were just issued by the sugar division of the food administration, when the announcement came from Washington calling for the increased allowance. Retailers are believed to have in their possession at this time sufficient sugar to take care of the increased demand, until such time as the added certificates can be prepared and forwarded to them.

Manufacturers of foodstuffs, bottlers and other commercial users of sugar are not affected by the new order. They are still limited to fifty percent of their total consumption for the corresponding months of 1917.

### MAYOR LIFTS BAN

Mayor A. B. Irvin announced this morning that the ban prohibiting the burning of leaves has been lifted. He asks that people remember that the city ordinance providing that leaves be burned between the hours of seven a. m. and two p. m. is still in effect.

## MUST HAVE OVERSEAS LABEL

Person Wishing Cartons to Ship Gifts Must Present Them.

Persons who call on the Red Cross Christmas parcels committee in the recorder's office in the court house for a carton to ship gifts to soldiers overseas, must bring them their label which has been forwarded by the soldier to whom they wish to send the parcel. The committee asked today that this be emphasized because the committee has strict instructions not to give out cartons unless the overseas labels are presented. Many people have called for a carton without their label. Their word is not doubted, but the committee has to follow the rules in every instance.

## TWENTY NEW CASES OVER THE WEEK END

Eleven Develop on Saturday and Seven on Sunday in Spanish Influenza Epidemic.

### FEW SCHOOLS OPENED TODAY

Twenty new cases of the Spanish influenza were reported over the week end, two of them developing on Friday, eleven on Saturday and seven on Sunday, making a total of 673 cases which have been reported during the epidemic in the county. Five of the seven Sunday cases came from Dr. Barnett of Homer and the other two were in Rushville, both in families where the malady has already existed. Six of the cases reported Saturday were in the city and five outside.

With the lifting of the ban on public gatherings Saturday midnight, the various activities of the people of the county were practically normal today, with the one exception that a majority of the schools of the county were still closed. The city school board decided Saturday that it would not be wise to open the Rushville public schools just at this time and many township school officials reached the same decision. Not many township schools resumed their sessions this morning, the Noble township school at New Salem being a notable exception. The Rushville township schools opened this morning, but were later closed by the township trustee for another week.

## PREDICTS FIGHTING WILL END IN 10 DAYS

E. C. Toner, Anderson Editor, Speaks at Dedication of Honor Roll at Milroy Sunday.

### OVER FIFTY NAMES ON BOARD

A big patriotic demonstration marked the dedication of Anderson township's honor roll of soldiers in the army, navy and marine corps, at Milroy Sunday afternoon at two o'clock. Between seven hundred and eight hundred people were present.

Edward C. Toner, editor of the Anderson, (Ind.) Herald, who recently returned from the battle fronts of Europe, delivered the principal address, and a short talk was made by Mr. Turner, athletic coach of the Greensburg Y. M. C. A. The Rev. E. A. Robertson, pastor of the Milroy M. E. church, presided and introduced the speaker. The Milroy male quartet provided the music.

## DEVOTE ENERGIES TO GET OUT VOTE

Efforts of Rush County Political Leaders are Now Pointed in That Direction.

### 5,684 ARE REGISTERED HERE

Most Unusual Campaign Ever Conducted Comes to Close with Interest at White Heat.

The Daily Republican tonight contains a supplement, giving the official vote in Rush county in the general election two years ago. It may be used for purposes of comparison when the vote begins to come in tomorrow night.

With the campaign closing tonight, leaders of both the democratic and republican parties in Rush county were predicting victory. All energies of political workers on both sides will be directed toward getting to the polls, every registered voter in the county.

There are 5,684 voters in Rush county registered and qualified to vote tomorrow. If every one of them casts a ballot in the box, the total vote in the county will be far in excess of that in an "off" year. The normal vote in the general elections every four years is about 5,500.

The campaign has been without precedent in Rush county, because there has not been a single public meeting or campaign speech. Plans had been made by the republicans for Senator James E. Watson to close the campaign here on the night before the election, but they were abandoned several days ago because of the doubt about whether the ban on public meetings would be lifted, and for the additional reason that the republicans of Marion wanted him to speak there tonight. Democratic campaign managers also had plans for several big meetings.

Chairman Ed Wasmuth of the republican state committee declared that he believed the Indiana voters would "support the war" by returning the republican congressmen who are seeking re-election and by choosing republicans in at least two districts which are now represented by democrats.

Fred Van Nuys, democratic chairman, stated that he felt confident that the voters would support the president at this critical hour by electing those men who are in accord with the president's policies.

Van Nuys declared that the four democratic congressmen would be reelected, according to all indications and also that big inroads would be made on the Indiana republican representation in the house.

The campaign, closing today, was one of the quietest in the history of Indiana politics during the first few months. But as election approached, the fight grew warmer until today it was regarded as at white heat.

The campaign was hampered considerably by the restrictions placed on all public activities during October by the health board because of the influenza epidemic. But in those cities where the ban has been lifted, the orators have made up for lost time during the last day or two.

Special preparations have been made in many of the larger cities to watch frauds. Workers under the direction of United States District Attorney L. Ert Slaek will give special attention to the enforcement of the new act of congress which provides severe penalties for vote buying in a congressional election.

For the first time in Indiana, some

## FILES MOTION TO DISMISS

Prosecutor Alleges Lack of Evidence in Wagner Case.

Prosecutor Albert Stevens today filed a motion to dismiss the case of the state against Curtha Wagner, who is accused of perjury, on account of the lack of evidence. Will A. Hough of Greenfield will have to act on the motion as he is special judge in the case. This action has been in court for some time, having been postponed a number of times. On one occasion a similar indictment was nolleed because it had been returned by a grand jury which was not drawn in a regular manner. The next grand jury, however, returned an indictment, charging the same offense.

## FOUR MORE LISTED FOR VOLUNTARY INDUCTION

Army Board Now Has 11 Registrants Who Want to Take Motor Transport Training.

### 402 QUESTIONNAIRES OUT

No registrants of the September 12 were classified by the local army selection board Saturday and it is not probable that any more classifications will be made until after the election. One hundred and twenty questionnaires were returned Saturday, making a total of 867 which have been received by the board, and leaving 402 yet to be returned.

Four more registrants have been listed for voluntary induction in the call for men for overseas duty in the motor transport service. They are all registrants held for general military service and are as follows: Callie Harecourt, Milroy; Virgil R. Miller, Rushville, R. R. 5; Raymond Clifford, 814 North Oliver street, city, and Edward Phillips, 714 West First street, city. This makes a total of eleven listed for induction on this call.

The name of Oliver Booth, Calgary, Canada, formerly of this county, has been added to the list of September 12 registrants. He registered in Calgary and the board here has just received his card. This brings the total registration up to 2,246.

The board today called fifteen registrants of the last class for physical examination Thursday. Twelve were called for examination today.

Private Fred Kessler, Jr., Dies Of Pneumonia in France, Word From War Department Says.

### OVERSEAS ONLY FEW MONTHS

The first Walker township boy has made the supreme sacrifice. Private Fred Kessler, Jr., son of Fred Kessler, Sr., died of pneumonia in France October 11, according to an announcement from the war department received by his father.

Private Kessler was in the ordnance department and had been overseas only a few months. He registered June 5, 1917 and was inducted into the service at Camp Taylor, Ky., by the local army selection board. His brother, Michael Kessler, was inducted at the same time and is still in this country in training.

Private Kessler is survived by his father, who lives a mile and a half

## BRITISH ARE TEN MILES FROM MONS

In Drive on Front of 35 Miles Between Guise and Valenciennes, Reach Aunelle River.

### STENAY GAP IS UNTENABLE

German Army is Virtually Split So Far as Freedom of Maneuvering Is Concerned

### WITHDRAWING THROUGH METZ

Germans Retiring There in Addition To Retreat Before Americans West of Meuse

(By United Press)

London, Nov. 4.—The British in today's drive between Valenciennes and Guise on a front of 35 miles, have reached the Aunelle river, ten miles from Mons, according to battle front dispatches.

London, Nov. 4.—The Stenay gap through which the German armies expected to pass in their retirement south of the Ardennes, has been rendered untenable by the newest American advance, it was indicated in the American official statement today.

American troops have passed Stenay on the west, cutting the line of communications between Stenay and Beaumont. The German army has thus been virtually split so far as freedom of maneuvering is concerned.

### British Open New Attack

London, Nov. 4.—The British opened a new attack on a wide front south of the Scheldt this morning, it was announced by Field Marshal Haig. The attack was reported proceeding satisfactorily.

French and American troops have established bridgeheads across the Scheldt northeast of Audenarde.

The British crossed the river eight miles north of Tournai. Unofficial dispatches report the capture of Ghent.

The tenth army with which Americans are brigaded, has taken more than sixteen thousand prisoners on the Italian front.

### Americans Pursue Enemy

With the Americans in France, Nov. 4.—The Germans in addition to their retreat before the French and Americans west of the Meuse, are reported to be withdrawing their infantry and heavy artillery through Metz. There is unusual activity behind the lines in the Woivre region.

American infantry and light artillery resumed their pursuit of the enemy all along the line from Attigny eastward to the Meuse.

Our heavy artillery and airplanes are bombarding the roads in the rear of the enemy, which are jammed with men, guns and material.

Yankee naval gunners are bringing up monster cannon over newly built railroads to hammer the boche's vital centers behind the Meuse.

The doughboys are now less than four miles from Stenay, the all important crossing of the Meuse, possession of which will render most difficult the German retirement along the southern border of the Ardene.

## RESENTS PLEA OF WILSON FOR PARTY

Margaret A. Henry Asks Why Husband and Son, Who are in Uniform, Can't be Trusted

CAUSE THERE'RE REPUBLICANS

Patriotic Nebraska Woman Addresses Telegram of Protest to President Wilson

Omaha, Neb., Nov. 4.—The following telegram, sent to President Wilson by a patriotic Nebraska woman, appeared in the Omaha Bee Sunday:

Omaha, Neb., Nov. 1, 1918.  
"My Dear Mr. President—The papers contain your appeal asking people to support you by voting only for Democrats at the coming election so you may be 'unembarrassed' by Republicans, whose loyalty you question. You address 'My Fellow Countrymen', which I take it includes me, though I am a woman, and I take it on myself to speak for my husband and my son, who are both wearing the uniform and can not answer your letter except as they are answering it over there.

"That ours is not a paper patriotism, I give you these simple facts. I own and personally operate a large hospital. At the outbreak of the war I tendered the hospital with all its equipment, facilities and nurses to the government. My son volunteered and has been for months in the big drive in France. My husband was a surgeon with an extensive practice. He was past the draft age, but when the call came he gladly gave up his business and is now on his way to France with a base hospital.

"When the Liberty Loan campaign was on he directed me to buy all the bonds his credit would stand and we subscribed cheerfully and liberally to the Red Cross and Y. M. C. A. To make sure my husband and my son might be 'unembarrassed' in fighting for our country, I gave up my house and am living at my hospital, which, incidentally, has furnished for service eight of its staff and more than twenty nurses.

"Do you think, Mr. President, it is no sacrifice for a woman to give up her home and all that is near and dear to her?

"Can you be surprised, then, that I am dumb with astonishment at your letter which would have me believe that it is disgraceful and disloyal to vote for a Republican?

"If my husband and son are good enough patriots to fight the battles

## BREAK LA GRIPPE OR INFLUENZA

### DIRECTIONS

Go to bed at once, cover up real warm, take four doses of Hull's Superlative Compound, 20 drops every two hours. You will go into a sweat. Remain covered until perfectly dry. You will notice that aches, pains and fever have disappeared. Follow by taking 8 to 10 drops three times a day until perfectly well. Do not expose yourself or get chilled until you are thoroughly well, or a relapse is liable to take place, which may be much worse than the first attack. If it does not act on the bowels in 12 hours take a strong physic.

"25 years ago I had a bad attack of real influenza; our family had the same. Hull's Superlative did its work in 24 hours and broke it up and has broken up all the colds and lagrippe I have had in the last 29 years. I know what it will do and have confidence; that is the reason I can recommend it to others, with good faith and a clear conscience that it will do for you what it has done for me."

Hull's Superlative is a root and bark remedy, rich in Peruvian Bark, fever breaker, Golden Seal the greatest known vegetable antiseptic and other ingredients as good as those mentioned. Hundreds testify to great good received. Be sure and keep it in the house. LaGrippe comes almost at once without warning. Then is when you need Hull's Superlative.

There is one safe, dependable treatment that relieves itching torture and skin irritation almost instantly and that cleanses and soothes the skin.

Ask any druggist for a 35c or \$1 bottle of zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear.

A little zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions and makes the skin soft, smooth and healthy.

of their country and risk their lives for us who stay at home, would they, if one were a candidate for congress, be less patriotic and less to be trusted because they are Republicans?

"Inasmuch as the men I most love are fighting at the front, do you wonder that I am disturbed by your appeal?

"Is it strange that I want to know what is the matter with them; that I want to know if they are not 100 per cent for Uncle Sam?

"I thought you asked us a little while ago to forget politics and think only of winning the war. How then, do you now ask us to forget what you then said and follow your orders in politics?

"In all candor, Mr. President, I ask you: Are you playing fair?"

"MARGARET A. HENRY."

## HOW WEAK, NERVOUS WOMEN QUICKLY GAIN VIGOROUS HEALTH AND STRONG NERVES 7 A DAY FOR 7 DAYS

A Vigorous, Healthy Body. Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feren.

World's Grandest Health Builder Costs Nothing Unless It Gives to Women the Buoyant Health They Long For.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves so healthy, so attractive and so self-confident that they would compel the admiration of all their friends.

The vital health building elements that these despondent women lack are all plentifully supplied in Bio-feren.

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren right away.

It costs but little and you can get an original package at any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills a claim.

Note to Physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux Vomica; Powdered Ben-tan; Phenolphthalein; Oleoresin Capsicum; Kolo.

## A Self-Cleaning Conveyor

We are wondering if our customers fully appreciate what real quality is built into the "RUSHVILLE SPECIAL" Spreader by the use of the OPEN-DOOR, or SELF-CLEANING conveyor. You know the trials and troubles that come from the clogging of a conveyor under a manure spreader, the fouling of the slats and the general objections of this character as found in many machines.

In our spreader we have entirely overcome objections of this kind by having each section of the conveyor hinged at one edge so, as it passes back under the machine, it swings wide open and lets all accumulation fall freely to the ground. There is no clogging of this machine in the Winter time, no matter how much it freezes up. There are none of the fouling troubles that come with other endless conveyors. This is one of the vital parts of a manure spreader.

This kind of a conveyor is expensive to build, but that is not the only reason why it is found on no other machines. It is covered by basic patents and is made only by the company building our spreaders for us.

Come in and let us show you what it is and how it turns the trick. We are waiting for your call.

## Few Women of Today Work Blindly

Used to be that daughters adhered strictly to mothers' methods of home management. They used certain baking recipes simply because they were favorites of former generations.

Times have changed radically. Colleges and clubs have been established for the express purpose of determining just which baking method and baking materials are best.

Many domestic scientists devote their lives to research and experimental work. They are constantly testing food products. They conduct exhaustive comparative tests. They accept and endorse only such methods and baking processes as have been found superior through scientific measurement of merit. These decisions are given wide publicity. The result is that the housewife of today produces more wholesome and perfect bakings at less cost than ever before.

I have conducted many experiments and have investigated experiments conducted by scores of other domestic scientists. My own work and the decisions handed down by other pure food specialists and domestic scientists—bring out the evidence that the overwhelming majority employ and advocate the use of one special brand of baking powder—which proves once more the old saying that "there is only one best."

I know that this baking powder has won its popularity among experts on merit alone. Because I know that they show no partiality. To obtain their approval a product must possess superiority. And that superiority must cover every phase of baking powder quality of material and action. It must be absolutely sure in results—never fail. It must be perfectly pure—leave no harmful residue in the foods. It must produce the best grade of bakings—cakes, biscuits, etc., that are light, tender and tasty. Finally—it must be a baking powder that is economical in both cost and use.

Calumet Baking Powder is the one baking powder that has won the verdict of superiority and the hearty endorsement of expert domestic scientists—who like myself have proved Calumet's super-excellence beyond dispute. This superiority "sanctioned" as it is by eminent domestic science authorities certainly clearly indicates that Calumet gives the housewife the greatest of Baking Powder value.

**Republican Congress Needed**

Republicans in congress have supported and will continue to support President Wilson in every proposal which is necessary in vigorous prosecution of the war to an early and conclusive victory, with the least possible expenditure of lives and money. They are pledged to this course by words and deeds.

Every criticism of the war program, executive as well as legislative, that republicans have uttered, and every proposal they have made affecting the conduct of the war, has been inspired by the thought of saving men and resources.

Rejection of republican proposals urging greater preparedness for war has prolonged the present struggle.

A sterner attitude following the sinking of the Lusitania by a German submarine, especially in the diplomatic correspondence following that crime against America and all humanity would have shortened the war.

Lack of preparedness and consequent haste necessary to enlarge the army and navy, plus democratic inefficiency, emphasized in legislative leadership, have made waste and extravagance inevitable, all of which is proven by evidence.

The vast resources of America, which have turned the tide of war toward America and her allies, were built up under republican administration. Republican principles therefore will insure the improvement and maintenance of these resources when the commanding problem of reconstruction is confronted.

A democratic congress will not meet these reconstruction problems at the logical time—in advance. A republican congress will do this, and is better equipped than a democratic Congress for the task."

**He Needs the Money**

The objection of the war department, in its report to the senate committee on military affairs, that reduced railroad fare to our soldiers and sailors would increase railroad congestion, is pretty flimsy when comparisons are entered into with what is being done abroad. Great Britain gives her soldiers transportation to and from their homes free of charge, and she has at least 5,000,000 men under arms and within easy traveling distance of the homeland. Yet she operates but 25,000 miles of railroad in an area the size of New Mexico, and much more densely populated. France also transports her soldiers free of charge, and France has 30,000 miles of railroad operating in an area the size of Oregon and Nevada, and much more thickly settled. Her 3,000,000 men at arms are close at hand, and the enormous freight operations incident to the war are mainly on her territory. The railroad mileage of the United States is roughly about 250,000 miles, fairly well distributed over an area of 3,000,000 square miles. We have about 3,500,000 men in service, two-thirds of them being overseas and not immediately contemplating the overwhelming of Mr. McAdoo's railroad system. Was not the war department's objection induced by a whispered word from the office of our railroad administrator, who is grasping for all the revenue he can get with a view to offsetting the already heavy deficit which increases monthly, under government control, despite the 50 per cent increase in passenger traffic, and the 25 per cent boost in freight rates? Does not this report suggest an example of how the railroad dictator and the titular head of the war department, Mr. Baker, work together in the gentle art of camouflage? And the quarter of a sailor, or the two bits of a soldier, is just as good as any other man's.

On the eve of our entrance into this war, Mr. Wilson's interminable vacillation practically compelled the resignation of the only member of his cabinet in whom the country had any considerable measure of confidence, and there was appointed in his place—an administrative department of capital importance—a self-confessed pacifist, whose waton failures have made the severest criticism and the most searching investigations necessary to accomplish our purposes in this war.

In the midst of the nation's war and tax burdens heretofore undreamed of, the public payroll has been made an open Sesame to the numerous band of deserving democrats and near-democrats who have had few duties to perform and no obligations to assume. Acts already committed are scarcely less reprehensible than the attempted violation of civil service regulations in the selection of the census staff.

What doth it profit, America—surcharged with ideals of political liberty—to destroy a Hohenzollern dynasty in Germany and to set up an autocracy at home? The President of the United States is the only ruler involved in this war who has stood out steadfastly against a reorganization of the government, admitting the participation of all political parties in the management of the war. Though Mr. Wilson's methods are more devious, the re-

sults are the same. The republican party is the only political party in all the belligerent countries which has been willing to support the war without active participation in the administration of it. Mr. Wilson has even denied the right of the republican party to offer helpful criticism in the conduct of the war. Now he demands as additional security against participation by the states which have borne the burden of the war that the country elect a congress of his own particular political faith.

Mr. Tumulty is of the opinion that Wilson is warranted in an appeal for the election of a democratic congress because well known republicans appealed for the election of a republican congress in 1898. In the first place, the Spanish-American war was little more than a back-yard row; second, it was over before the campaign of 1898 began; third, the democrats not only were opposed to the war and had voted overwhelmingly against appropriations for it but were opposed to the results growing out of the war.

**STATE'S TOTAL VOTE ESTIMATED AT 560,000**

This is About 65 Percent of The Number of Votes Cast for Governor in 1916

**SOLDIER VOTE SMALL ITEM**

Indianapolis, Ind., Nov. 4.—A total vote of about 560,000 in Indiana at the election tomorrow was forecast here today by political leaders in close touch with the situation. This is about sixty-five per cent of the total vote for governor cast in the 1916 election.

Lack of interest in the present campaign is the chief reason assigned for the light vote predictions. The fact that about 30,000 young men are in army service and will be unable to cast their ballot is also having some influence on the small vote predictions.

There are about 6,000 soldiers in various camps registered but it is not believed that the soldier vote will be but about one-half of this amount. A large number of the men who registered have been shifted to other camps or left for overseas service before casting their ballots.

Most of the soldier ballots have now been cast and are in the hands of the county clerks.

**CONVALESCENCE**

"Getting Better" is the most serious time for those who have had grippe, influenza or other severe sickness. Something more than ordinary good food is required to build you up. A tonic is needed, and for this purpose doctors usually prescribe some form of Iron, Nux Vomica, Gentian, and Zinc Phosphate.

The Iron especially is very essential but in most preparations it causes constipation. In Dr. Chase's Blood and Nerve Tablets this is overcome however, by the addition of Aloin to the other tonic remedies. As these tablets contain all of these essential tonics in any easily assimilated form, they make a pleasant safe and sure health restorer and of inestimable value at this time.

Weigh yourself before taking and watch the rapid progress of returning health.

Dr. Chase's Blood and Nerve Tablets may be had at almost any druggists at sixty cents a box. Special strength ninety cents.—Adv.

**President Lincoln said:**

This is a Government of the people, by the people and for the people.

**President Wilson says:**

No candidate who is a member of President Lincoln's party should be elected to Congress. If the President dictates who shall sit as Congressmen, then this nation is no longer a Government of the people.

**Are You Ready for a Political Dictator?**

In fighting a World War against Autocracy abroad, we should not surrender our Democracy at Home.

**Champ Clark, Democratic Speaker of the House of Representatives,**

in discussing the Draft law said that the word Conscript to him meant the same as Convict. He now looks upon that great body of the army of the United States as a body of Convicts.

Regardless of the feelings of the fathers and mothers of our soldier boys, President Wilson asks that Champ Clark be re-elected and that no true, red blooded Republican be sent to Congress.

**➔ Remember This Next Tuesday**

**Autocracy or Democracy?**

William G. McAdoo, son-in-law of President Wilson, as

Secretary of the Treasury,  
Head of the Nation's Banking System,  
Director General of All Railroads,  
General Manager of All Express Companies,  
Has Unexampled Power For Political Use.

HOW MUCH POWER SHOULD ONE MAN HAVE IN A DEMOCRACY? Answer Next Tuesday.

**Should Republicans Have a Voice in the Management of Their Country?**

Within the past few months the Government has actually appropriated more money than had been expended from the days of Washington to those of Wilson.

The National pay-rolls are overloaded with "Deserving Democrats."

All of these vast appropriations and expenditures are under the direction and control of a comparatively few Southern democrats who dominate the democratic party.

Under these conditions do you think republicans should have any representation in Congress?

President Wilson says not.

**➔ What Do You Say, Mr. Voter**

**A Country Without a Representative**

In the War Conferences held at Versailles with our Allies the United States is without Official Representation. England, France, Belgium and Italy sent men to these conferences, having official connection with their respective governments, and those officials have power to act. Not so the United States.

President Wilson sent the mysterious Col. "John Doe" House as his personal representative, not the representative of his nation, who has no power to act for the country. He is instructed to make no agreement with the Representatives of our Allies, but merely to report matters to President Wilson, for his approval or disapproval.

This is humiliating to us as a nation, and discourteous to our Allies.

The Republicans believe that men should be named by the President and confirmed by the Senate in the regular manner to Officially Represent Our Country.

## BAD BREATH

**Dr. Edwards' Olive Tablets Get at the Cause and Remove It**

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

**SHORTAGE IN SPRING FERTILIZER EXPECTED**  
"Farmers are likely to experience another fertilizer shortage next spring," said County Agent Detrick today.  
"Manufacturers ordinarily run at full capacity during February, March and April to put out their spring orders, but owing to the scarcity of labor, the only method of supplying the spring tonnage will be to continue through the winter with the depleted labor supply now on hand, to make and ship the goods as soon as cured.  
"This method will necessitate the co-operation of the farmer who will be asked to accept an early shipment and store the fertilizer until planting time."  
"Early shipment this year will not mean February, nor even January, but November and December.  
Fertilizer orders placed now mean assurance of delivery."

American women are right behind the U. S. troops in the trenches. Women nurses are now installed in hospitals 8 miles in the rear of the actual fighting line. Many of our American women are unable to take up the duties of nursing at the front, but they should know how to take care of their own at home, and for this purpose no better book was ever printed than the Medical Adviser—a book containing 1,008 pages, and bound in cloth, with chapters on First Aid, Bandaging and care of Fractures, Taking care of the Sick, Physiology, Hygiene, Sex Problems, Mother and Babe, which can be had at most drug stores, or send 50 cents to the publishers, 663 Main St., Buffalo, N. Y.  
The women at home, who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription.  
Send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.  
Lafayette, Ind.—"Favorite Prescription" was of great comfort to me during middle age. Whenever I felt melancholy, or had blinding dizzy spells or hot flashes, I would take it for a few days and it never failed to give me relief. I also used the "Healing Suppositories" and think they are splendid. About twelve years ago I wrote to the Faculty of the Invalids' Hotel, Buffalo, N. Y., for advice. I appreciate the advice given me. I always take pleasure in recommending Dr. Pierce's remedies and hospital."

## DIRECT ENERGY TO GET OUT THE VOTE

Continued from Page One  
aliens who have declared their intention of becoming citizens of the United States will not be allowed to cast ballots. The state election board has ruled that enemy aliens will not be allowed to vote, although the Indiana constitution holds that any alien who has declared his intention of becoming a citizen may cast a ballot. The election board held that the constitution makers undoubtedly did not intend that alien enemies should be allowed to vote.

About 30,000 persons who cast ballots at previous elections will be prevented from voting tomorrow by this ruling, according to best estimates.

The total vote as a result will probably be considerably lighter than at previous congressional elections. Of the 40,000 Indiana men in the service of the government military branches, only about 7,000 have registered to vote and have already cast their ballots by mail.

Besides congressional elections, the entire membership of the state house of representatives and one-half of the members of the state senate will be chosen. State officials, including attorney general, auditor, superintendent of public instruction, secretary of state, geologist, and judges of state courts will be chosen.

## PREDICTS FIGHTING WILL END IN TEN DAYS

Continued from Page One  
The prediction of Mr. Toner that ten days will find hostilities at an end, cheered the audience immensely. The speaker commented on the rapidly changing tide of battle in Italy and on the west front in France and Belgium. Since Mr. Toner was on an inspection tour of the west and Italian fronts as a representative of Gov. Goodrich, he came well qualified to discuss intelligently the new developments in the war.

The meeting was held in the street in front of the honor roll board, which contains more than fifty names. More names are to be added to the board before it is complete.

The people of the county are entitled to security and happiness, and protection of their property. On the other hand, innocent persons should not be prosecuted and subjected to annoyance and even disgrace; nor should they or the county be subjected to the expense of abortive trials. ## PROVIDE COMPLETE SURRENDER

### ARMISTICE TERMS STRIP AUSTRIA OF MILITARY POWER

Call For Cessation of Hostilities, Demobilization of Army, Evacuation of All Invaded Territory, Withdrawal of German Troops From Italian and Balkan Fronts and Austro-Hungarian Territory, and Disposition of all Naval Equipment.

#### GIVE SOME IDEA OF TERMS FOR GERMANY

(By United Press)

Washington, Nov. 4.—Complete, effective surrender of Austria-Hungary is provided by the United States-allied armistice terms, now operative and made public by the state department today. The terms, stripping her of her last shred of military power, provide for:

- Cessation of hostilities.
- Demobilization of the army.
- Delivery to allies of half of the enemy artillery and equipment.
- Opening of the Adriatic and the Danube to the allies.
- Allied occupation of Danube ports and the Pola naval base.
- Concentration of aircraft at designated points to be supervised by the allies.
- Evacuation of all invaded territory.
- Withdrawal of all Austrian troops from the west front.
- Use by allies of roads, rail and waterways, in Austria-Hungary.
- Withdrawal of all German troops within fifteen days, not only from the Italian and Balkan fronts, but from all Austro-Hungarian territory.
- Surrender of fifteen Austro-Hungarian submarines and of all German submarines in Austrian waters. All other submarines are to be disarmed and remain under supervision of the allies.
- Surrender to the allies with their complete armament and equipment three battleships, three light cruisers, nine destroyers, twelve torpedo boats, one mine layer and six monitors.
- All other warships are to be concentrated at naval bases, disarmed and placed under supervision of the allies.

These terms and others put an iron clamp on Austria. From them may be deduced the nature of terms to be meted out to Germany, it was stated authoritatively today. Germany will have to meet requirements equally as strong in the matter of demobilization, surrender of material, surrender of submarines and warships, and occupation of strategic points.

#### Kaiser to Refuse Armistice.

Paris, Nov. 4.—The reichstag group will confer today and tomorrow for the purpose of arriving at a decision on the question of the Hohenzollern dynasty, says a Zurich dispatch. The German press believes that the kaiser and military headquarters propose to refuse the terms of the armistice while the civil government is inclined to accept them. The tension between these two is strained.

#### Food Blockade Against Germany.

Geneva, Nov. 4.—The Hungarians have declared a food blockade against Germany, in an effort to hasten peace, it was reported in dispatches received here today. All railway and boat traffic to Germany has been stopped. The blockade holds up about 20 thousand tons of foodstuff and large quantities of petroleum and prevents the return of two German divisions. A Vienna dispatch says German

soldiers and sailors passing through the city have been disarmed. **Suggests Penalty For Delay.** London, Nov. 4.—Pacific penalty for every day the war is prolonged after the allies submit the armistice terms to Germany, with consequences definitely worse for the enemy if she fails to recognize the armistice as an ultimatum, is the explanation of the Sunday Observer as a means of letting Germany know there will never be an abatement of the severity of the present allied terms.

### 3 POUNDS A MONTH NEW SUGAR RATIONS

Increased Allowance for Individual Consumers and Hotels and Restaurants Announced.

#### MANUFACTURERS THE SAME

Notice was issued today by the United States food administration, in Indiana, Dr. Harry E. Barnard, administrator, that certificates for increased allowances of sugar for November and December would be supplemented fifty per cent to take care of the increased allotment announced in Washington. Hereafter individual consumers will be rationed on a basis of three pounds per month and public eating houses allowed on a basis of three pounds for each ninety meals served. The allowance since October 1 has been two pounds in each case.

The certificates to public eating houses and retailers in Indiana, amounting to many thousands, were just issued by the sugar division of the food administration, when the announcement came from Washington calling for the increased allowance. Retailers are believed to have in their possession at this time sufficient sugar to take care of the increased demand, until such time as the added certificates can be prepared and forwarded to them.

Manufacturers of foodstuffs, bottlers and other commercial users of sugar are not affected by the new order. They are still limited to fifty percent of their total consumption for the corresponding months of 1917.

#### MAYOR LIFTS BAN

Mayor A. B. Irvin announced this morning that the ban prohibiting the burning of leaves has been lifted. He asks that people remember that the city ordinance providing that leaves be burned between the hours of seven a. m. and two p. m. is still in effect.

#### MUST HAVE OVERSEAS LABEL

Person Wishing Cartons to Ship Gifts Must Present Them.

Persons who call on the Red Cross Christmas parcels committee in the recorder's office in the court house for a carton to ship gifts to soldiers overseas, must bring them their label which has been forwarded by the soldier to whom they wish to send the parcel. The committee asked today that this be emphasized because the committee has strict instructions not to give out cartons unless the overseas labels are presented. Many people have called for a carton without their label. Their word is not doubted, but the committee has to follow the rules in every instance.

### TWENTY NEW CASES OVER THE WEEK END

Eleven Develop on Saturday and Seven on Sunday in Spanish Influenza Epidemic.

#### FEW SCHOOLS OPENED TODAY

Twenty new cases of the Spanish influenza were reported over the week end, two of them developing on Friday, eleven on Saturday and seven on Sunday, making a total of 673 cases which have been reported during the epidemic in the county. Five of the seven Sunday cases came from Dr. Barnett of Homer and the other two were in Rushville, both in families where the malady has already existed. Six of the cases reported Saturday were in the city and five outside.

With the lifting of the ban on public gatherings Saturday midnight, the various activities of the people of the county were practically normal today, with the one exception that a majority of the schools of the county were still closed. The city school board decided Saturday that it would not be wise to open the Rushville public schools just at this time and many township school officials reached the same decision. Not many township schools resumed their sessions this morning, the Noble township school at New Salem being a notable exception. The Rushville township schools opened this morning, but were later closed by the township trustee for another week.

### PREDICTS FIGHTING WILL END IN 10 DAYS

E. C. Toner, Anderson Editor, Speaks at Dedication of Honor Roll at Milroy Sunday.

#### OVER FIFTY NAMES ON BOARD

A big patriotic demonstration marked the dedication of Anderson township's honor roll of soldiers in the army, navy and marine corps, at Milroy Sunday afternoon at two o'clock. Between seven hundred and eight hundred people were present. Edward C. Toner, editor of the Anderson, (Ind.) Herald, who recently returned from the battle fronts of Europe, delivered the principal address, and a short talk was made by Mr. Turner, athletic coach of the Greensburg Y. M. C. A. The Rev. E. A. Robertson, pastor of the Milroy M. E. church, presided and introduced the speaker. The Milroy male quartet provided the music. Continued on Page Eight

### DEVOTE ENERGIES TO GET OUT VOTE

Efforts of Rush County Political Leaders are Now Pointed in That Direction.

#### 5,684 ARE REGISTERED HERE

Most Unusual Campaign Ever Conducted Comes to Close with Interest at White Heat.

The Daily Republican tonight contains a supplement, giving the official vote in Rush county in the general election two years ago. It may be used for purposes of comparison when the vote begins to come in tomorrow night.

With the campaign closing tonight, leaders of both the democratic and republican parties in Rush county were predicting victory. All energies of political workers on both sides will be directed toward getting to the polls, every registered voter in the county.

There are 5,684 voters in Rush county registered and qualified to vote tomorrow. If every one of them casts a ballot in the box, the total vote in the county will be far in excess of that in an "off" year. The normal vote in the general elections every four years is about 5,500.

The campaign has been without precedent in Rush county, because there has not been a single public meeting or campaign speech. Plans had been made by the republicans for Senator James E. Watson to close the campaign here on the night before the election, but they were abandoned several days ago because of the doubt about whether the ban on public meetings would be lifted, and for the additional reason that the republicans of Marion wanted him to speak there tonight. Democratic campaign managers also had plans for several big meetings.

Chairman Ed Wasmuth of the republican state committee declared that he believed the Indiana voters would "support the war" by returning the republican congressmen who are seeking re-election and by choosing republicans in at least two districts which are now represented by democrats.

Fred Van Nuys, democratic chairman, stated that he felt confident that the voters would support the president at this critical hour by electing those men who are in accord with the president's policies.

Van Nuys declared that the four democratic congressmen would be reelected, according to all indications and also that big inroads would be made on the Indiana republican representation in the house.

The campaign, closing today, was one of the quietest in the history of Indiana politics during the first few months. But as election approached, the fight grew warmer until today it was regarded as at white heat.

The campaign was hampered considerably by the restrictions placed on all public activities during October by the health board because of the influenza epidemic. But, in those cities where the ban has been lifted, the orators have made up for lost time during the last day or two. Special preparations have been made in many of the larger cities to watch frauds. Workers under the direction of United States District Attorney L. Ert Slaek will give special attention to the enforcement of the new act of congress which provides severe penalties for vote buying in a congressional election. For the first time in Indiana, some

#### FILES MOTION TO DISMISS

Prosecutor Alleges Lack of Evidence in Wagner Case.

Prosecutor Albert Stevens today filed a motion to dismiss the case of the state against Curtha Wagner, who is accused of perjury, on account of the lack of evidence. Will A. Hough of Greenfield will have to act on the motion as he is special judge in the case. This action has been in court for some time, having been postponed a number of times. On one occasion a similar indictment was nollied because it had been returned by a grand jury which was not drawn in a regular manner. The next grand jury, however, returned an indictment, charging the same offense.

### FOUR MORE LISTED FOR VOLUNTARY INDUCTION

Army Board Now Has 11 Registrants Who Want to Take Motor Transport Training.

#### 402 QUESTIONNAIRES OUT

No registrants of the September 12 were classified by the local army selection board Saturday and it is not probable that any more classifications will be made until after the election. One hundred and twenty questionnaires were returned Saturday, making a total of 867 which have been received by the board, and leaving 402 yet to be returned.

Four more registrants have been listed for voluntary induction in the call for men for overseas duty in the motor transport service. They are all registrants held for general military service and are as follows: Callie Harcourt, Milroy; Virgil R. Miller, Rushville, R. R. 5; Raymond Clifford, 814 North Oliver street, city, and Edward Phillips, 714 West First street, city. This makes a total of eleven listed for induction on this call.

The name of Oliver Bodth, Calgary, Canada, formerly of this county, has been added to the list of September 12 registrants. He registered in Calgary and the board here has just received his card. This brings the total registration up to 2,246.

The board today called fifteen registrants of the last class for physical examination Thursday. Twelve were called for examination today.

### FIRST CASUALTY IN WALKER TOWNSHIP

Private Fred Kessler, Jr., Dies Of Pneumonia in France, Word From War Department Says.

#### OVERSEAS ONLY FEW MONTHS

The first Walker township boy has made the supreme sacrifice. Private Fred Kessler, Jr., son of Fred Kessler, Sr., died of pneumonia in France October 11, according to an announcement from the war department received by his father.

Private Kessler was in the ordnance department and had been overseas only a few months. He registered June 5, 1917 and was inducted into the service at Camp Taylor, Ky., by the local army selection board. His brother, Michael Kessler, was inducted at the same time and is still in this country in training.

Private Kessler is survived by his father, who lives a mile and a half from here. Continued on Page Eight

### BRITISH ARE TEN MILES FROM MONS

In Drive on Front of 35 Miles Between Guise and Valenciennes, Reach Aunelle River.

#### STENAY GAP IS UNTENABLE

German Army is Virtually Split So Far as Freedom of Maneuvering Is Concerned

#### WITHDRAWING THROUGH METZ

Germans Retiring There in Addition To Retreat Before Americans West of Meuse

(By United Press)

London, Nov. 4.—The British in today's drive between Valenciennes and Guise on a front of 35 miles, have reached the Aunelle river, ten miles from Mons, according to battle front dispatches.

London, Nov. 4.—The Stenay gap through which the German armies expected to pass in their retirement south of the Ardennes, has been rendered untenable by the newest American advance, it was indicated in the American official statement today.

American troops have passed Stenay on the west, cutting the line of communications between Stenay and Beaumont. The German army has thus been virtually split so far as freedom of maneuvering is concerned.

#### British Open New Attack

London, Nov. 4.—The British opened a new attack on a wide front south of the Scheldt this morning, it was announced by Field Marshal Haig. The attack was reported proceeding satisfactorily.

French and American troops have established bridgeheads across the Scheldt northeast of Audenarde.

The British crossed the river eight miles north of Tournai. Unofficial dispatches report the capture of Ghent.

The tenth army with which Americans are brigaded, has taken more than sixteen thousand prisoners on the Italian front.

#### Americans Pursue Enemy

With the Americans in France, Nov. 4.—The Germans in addition to their retreat before the French and Americans west of the Meuse, are reported to be withdrawing their infantry and heavy artillery through Metz. There is unusual activity behind the lines in the Woivre region.

American infantry and light artillery resumed their pursuit of the enemy all along the line from Atrigny eastward to the Meuse.

Our heavy artillery and airplanes are bombarding the roads in the rear of the enemy, which are jammed with men, guns and material.

Yankee naval gunners are bringing up monster cannon over newly built railroads to hammer the boche's vital centers behind the Meuse.

The doughboys are now less than four miles from Stenay, the all important crossing of the Meuse, possession of which will render most difficult the German retirement along the southern border of the Ardine.

# RESENTS PLEA OF WILSON FOR PARTY

Margaret A. Henry Asks Why Husband and Son, Who are in Uniform, Can't be Trusted

CAUSE THERE REPUBLICANS

Patriotic Nebraska Woman Addresses Telegram of Protest to President Wilson

Omaha, Neb., Nov. 4.—The following telegram, sent to President Wilson by a patriotic Nebraska woman, appeared in the Omaha Bee Sunday:

Omaha, Neb., Nov. 1, 1918.  
"My Dear Mr. President—The papers contain your appeal asking people to support you by voting only for Democrats at the coming election so you may be 'unembarrassed' by Republicans, whose loyalty you question. You address 'My Fellow Countrymen', which I take it includes me, though I am a woman, and I take it on myself to speak for my husband and my son, who are both wearing the uniform and can not answer your letter except as they are answering it over there.

"That ours is not a paper patriotism, I give you these simple facts. I own and personally operate a large hospital. At the outbreak of the war I tendered the hospital with all its equipment, facilities and nurses to the government. My son volunteered and has been for months in the big drive in France. My husband was a surgeon with an extensive practice. He was past the draft age, but when the call came he gladly gave up his business and is now on his way to France with a base hospital.

"When the Liberty Loan campaign was on he directed me to buy all the bonds his credit would stand and we subscribed cheerfully and liberally to the Red Cross and Y. M. C. A. To make sure my husband and my son might be 'unembarrassed' in fighting for our country, I gave up my house and am living at my hospital, which, incidentally, has furnished for service eight of its staff and more than twenty nurses.

"Do you think, Mr. President, it is no sacrifice for a woman to give up her home and all that is near and dear to her?

"Can you be surprised, then, that I am dumb with astonishment at your letter which would have me believe that it is disgraceful and disloyal to vote for a Republican?

"If my husband and son are good enough patriots to fight the battles

# BREAK LA GRIPPE OR INFLUENZA

DIRECTIONS

Go to bed at once; cover up real warm, take four doses of Hull's Superlative Compound, 20 drops every two hours. You will go into a sweat. Remain covered until perfectly dry. You will notice that aches, pains and fever have disappeared. Follow by taking 8 to 10 drops three times a day until perfectly well. Do not expose yourself or get chilled until you are thoroughly well, or a relapse is liable to take place, which may be much worse than the first attack. If it does not act on the bowels in 12 hours take a strong physic.

"25 years ago I had a bad attack of real influenza; our family had the same. Hull's Superlative did its work in 24 hours and broke it up and has broken up all the colds and grippe I have had in the last 29 years. I know what it will do and have confidence; that is the reason I can recommend it to others, with good faith and a clear conscience that it will do for you what it has done for me."

Hull's Superlative is a root and bark remedy, rich in Peruvian Bark, fever breaker, Golden Seal the greatest known vegetable antiseptic and other ingredients as good as those mentioned. Hundreds testify to great good received. Be sure and keep it in the house. LaGrippe comes almost at once without warning. Then is when you need Hull's Superlative.

of their country and risk their lives for us who stay at home, would they, if one were a candidate for congress, be less patriotic and less to be trusted because they are Republicans?

"Inasmuch as the men I most love are fighting at the front, do you wonder that I am disturbed by your appeal?

"Is it strange that I want to know what is the matter with them; that I want to know if they are not 100 per cent for Uncle Sam?

"I thought you asked us a little while ago to forget politics and think only of winning the war. How then, do you now ask us to forget what you then said and follow your orders in politics?

# HOW WEAK, NERVOUS WOMEN QUICKLY GAIN VIGOROUS HEALTH AND STRONG NERVES 7 A DAY FOR 7 DAYS

A Vigorous, Healthy Body, Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feren.

World's Greatest Health Builder Costs Nothing Unless It Gives to Women the Buoyant Health They Long For.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves so healthy, so attractive and so self-confident that they would compel the admiration of all their friends.

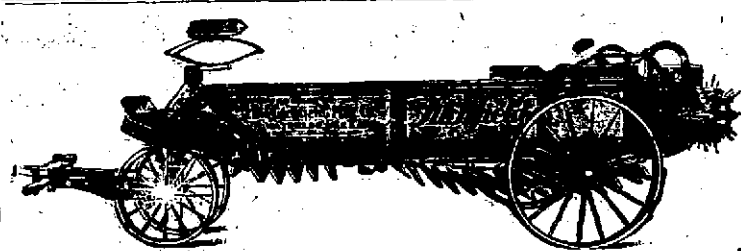

The vital health building elements that these dependent women lack are all plentifully supplied in Bio-feren.

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren right away.

It costs but little and you can get an original package at any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Leucithin; Calcium Glycero-phosphate; Iron Pentionate; Manganese Perphosphate; Pot. Nux Vomica; Pot. Benzoate; Phenolphthalein; Oleoresin Capsicum; Kolo.

# A Self-Cleaning Conveyor

We are wondering if our customers fully appreciate what real quality is built into the "RUSHVILLE SPECIAL" Spreader by the use of the OPEN-DOOR, or SELF-CLEANING conveyor. You know the trials and troubles that come from the clogging of a conveyor under a manure spreader, the fouling of the slats and the general objections of this character as found in many machines.

In our spreader we have entirely overcome objections of this kind by having each section of the conveyor hinged at one edge so, as it passes back under the machine, it swings wide open and lets all accumulation fall freely to the ground. There is no clogging of this machine in the Winter time, no matter how much it freezes up. There are none of the fouling troubles that come with other endless conveyors. This is one of the vital parts of a manure spreader.

This kind of a conveyor is expensive to build, but that is not the only reason why it is found on no other machines. It is covered by basic patents and is made only by the company building our spreaders for us.

Come in and let us show you what it is and how it turns the trick. We are waiting for your call.

## Few Women of Today Work Blindly

Used to be that daughters adhered strictly to mothers' methods of home management. They used certain baking recipes simply because they were favorites of former generations.

Times have changed radically. Colleges and clubs have been established for the express purpose of determining just which baking method and baking materials are best.

Many domestic scientists devote their lives to research and experimental work. They are constantly testing food products. They conduct exhaustive comparative tests. They accept and endorse only such methods and baking processes as have been found superior through scientific measurement of merit. These decisions are given wide publicity. The result is that the housewife of today produces more wholesome and perfect bakings as less cost than ever before.

I have conducted many experiments and have investigated experiments conducted by scores of other domestic scientists. My own work and the decisions handed down by other pure food specialists and domestic scientists—bring out the evidence that the overwhelming majority employ and advocate the use of one special brand of baking powder—which proves once more the old saying that "there is only one best."

I know that this baking powder has won its popularity among experts on merit alone. Because I know that they show no partiality. To obtain their approval a product must possess superiority. And that superiority must cover every phase of baking powder quality of material and action. It must be absolutely sure in results—never fail. It must be perfectly pure—leave no harmful residue in the foods. It must produce the best grade of bakings—cakes, biscuits, etc. that are light, tender and tasty. Finally—it must be a baking powder that is economical in both cost and use.

Calumet Baking Powder is the one baking powder that has won the verdict of superiority and the hearty endorsement of expert domestic scientists—who like myself have proved Calumet's superiority beyond dispute. This superiority "sanctioned" as it is by eminent domestic science authorities certainly clearly indicates that Calumet gives the housewife the greatest of Baking Powder value.

**Republican Congress Needed**

Republicans in congress have supported and will continue to support President Wilson in every proposal which is necessary in vigorous prosecution of the war to an early and conclusive victory, with the least possible expenditure of lives and money. They are pledged to this course by words and deeds.

Every criticism of the war program, executive as well as legislative, that republicans have uttered, and every proposal they have made affecting the conduct of the war, has been inspired by the thought of saving men and resources.

Rejection of republican proposals urging greater preparedness for war has prolonged the present struggle.

**RUFUS P. HAVENS**

A sterner attitude following the sinking of the Lusitania by a German submarine, especially in the diplomatic correspondence following that crime against America and all humanity would have shortened the war.

Lack of preparedness and consequent haste necessary to enlarge the army and navy, plus democratic inefficiency, emphasized in legislative leadership, have made waste and extravagance inevitable, all of which is proven by evidence.

The vast resources of America, which have turned the tide of war toward America and her allies, were built up under republican administration. Republican principles therefore will insure the improvement and maintenance of these resources when the commanding problem of reconstruction is confronted.

A democratic congress will not meet these reconstruction problems at the logical time—in advance. A republican congress will do this, and is better equipped than a democratic Congress for the task."

**He Needs the Money**

The objection of the war department, in its report to the senate committee on military affairs, that reduced railroad fare to our soldiers and sailors would increase railroad congestion, is pretty flimsy when comparisons are entered into with what is being done abroad. Great Britain gives her soldiers transportation to and from their homes free of charge, and she has at least 5,000,000 men under arms and within easy traveling distance of the homeland. Yet she operates but 25,000 miles of railroad in an area the size of New Mexico, and much more densely populated. France also transports her soldiers free of charge, and France has 30,000 miles of railroad operating in an area the size of Oregon and Nevada, and much more thickly settled. Her 3,000,000 men at arms are close at hand, and the enormous freight operations incident to the war are mainly on her territory. The railroad mileage of the United States is roughly about 250,000 miles, fairly well distributed over an area of 3,000,000 square miles. We have about 3,500,000 men in service, two-thirds of them being overseas and not immediately contemplating the overwhelming of Mr. McAdoo's railroad system. Was not the war department's objection induced by a whispered word from the office of our railroad administrator, who is grasping for all the revenue he can get with a view to offsetting the already heavy deficit which increases monthly, under government control, despite the 50 per cent increase in passenger traffic, and the 25 per cent boost in freight rates? Does not this report suggest an example of how the railroad dictator and the titular head of the war department, Mr. Baker, work together in the gentle art of camouflage? And the quarter of a sailor, or the two-bits of a soldier, is just as good as any other man's.

On the eve of our entrance into this war, Mr. Wilson's interminable vacillation practically compelled the resignation of the only member of his cabinet in whom the country had any considerable measure of confidence, and there was appointed in his place—an administrative department of capital importance—a self-confessed pacifist, whose waton failures have made the severest criticism and the most searching investigations necessary to accomplish our purposes in this war.

In the midst of the nation's war and tax burdens heretofore undreamed of, the public payroll has been made an open Sesame to the numerous band of deserving democrats and near-democrats who have had few duties to perform and no obligations to assume. Acts already committed are scarcely less reprehensible than the attempted violation of civil service regulations in the selection of the census staff.

What doth it profit, America—surcharged with ideals of political liberty—to destroy a Hohenzollern dynasty in Germany and to get up an autocracy at home? The President of the United States is the only ruler involved in this war who has stood out steadfastly against a reorganization of the government, admitting the participation of all political parties in the management of the war. Though Mr. Wilson's methods are more democratic than

others are the same. The republican party is the only political party in all the belligerent countries which has been willing to support the war without active participation in the administration of it. Mr. Wilson has even denied the right of the republican party to offer helpful criticism in the conduct of the war. Now he demands as additional security against participation by the states which have borne the burden of the war that the country elect a congress of his own particular political faith.

Mr. Tumulty is of the opinion that Wilson is warranted in an appeal for the election of a democratic congress because well known republicans appealed for the election of a republican congress in 1898. In the first place, the Spanish-American war was little more than a back-yard row; second, it was over before the campaign of 1898 began; third, the democrats not only were opposed to the war and had voted overwhelmingly against appropriations for it but were opposed to the results growing out of the war.

**STATE'S TOTAL VOTE ESTIMATED AT 560,000**

This is About 65 Percent of The Number of Votes Cast for Governor in 1916

**SOLDIER VOTE SMALL ITEM**

Indianapolis, Ind., Nov. 4.—A total vote of about 560,000 in Indiana at the election tomorrow was forecast here today by political leaders in close touch with the situation. This is about sixty-five per cent of the total vote for governor cast in the 1916 election.

Lack of interest in the present campaign is the chief reason assigned for the light vote predictions. The fact that about 30,000 young men are in army service and will be unable to cast their ballot is also having some influence on the small vote predictions.

There are about 6,000 soldiers in various camps registered but it is not believed that the soldier vote will be but about one-half of this amount. A large number of the men who registered have been shifted to other camps or left for overseas service before casting their ballots.

Most of the soldier ballots have now been cast and are in the hands of the county clerks.

**CONVALESCENCE**

"Getting Better" is the most serious time for those who have had gripple, influenza or other severe sickness. Something more than ordinary good food is required to build you up. A tonic is needed, and for this purpose doctors usually prescribe some form of Iron, Nux Vomica, Gentian, and Zinc Phosphide.

The Iron especially is very essential but in most preparations it causes constipation. In Dr. Chase's Blood and Nerve Tablets this is overcome however, by the addition of Aloin to the other tonic remedies.

As these tablets contain all of these essential tonics in any easily assimilated form, they make a pleasant safe and sure health restorer and of inestimable value at this time.

Weigh yourself before taking and watch the rapid progress of returning health.

Dr. Chase's Blood and Nerve Tablets may be had at almost any drug store or by mail from Dr. Chase's

**President Lincoln said:**

This is a Government of the people, by the people and for the people.

**President Wilson says:**

No candidate who is a member of President Lincoln's party should be elected to Congress. If the President dictates who shall sit as Congressmen, then this nation is no longer a Government of the people.

**Are You Ready for a Political Dictator?**

In fighting a World War against Autocracy abroad, we should not surrender our Democracy at Home.

**Champ Clark, Democratic Speaker of the House of Representatives,**

in discussing the Draft law said that the word Conscript to him meant the same as Convict. He now looks upon that great body of the army of the United States as a body of Convicts.

Regardless of the feelings of the fathers and mothers of our soldier boys, President Wilson asks that Champ Clark be re-elected and that no true, red blooded Republican be sent to Congress.

➔ Remember This Next Tuesday

**Autocracy or Democracy?**

William G. McAdoo, son-in-law of President Wilson, as

Secretary of the Treasury,  
Head of the Nation's Banking System,  
Director General of All Railroads,  
General Manager of All Express Companies,  
Has Unexampled Power For Political Use.

HOW MUCH POWER SHOULD ONE MAN HAVE IN A DEMOCRACY? Answer Next Tuesday.

**Should Republicans Have a Voice in the Management of Their Country?**

Within the past few months the Government has actually appropriated more money than had been expended from the days of Washington to those of Wilson.

The National pay-rolls are overloaded with "Deserving Democrats."

All of these vast appropriations and expenditures are under the direction and control of a comparatively few Southern democrats who dominate the democratic party.

Under these conditions do you think republicans should have any representation in Congress?

President Wilson says not.

➔ What Do You Say, Mr. Voter

**A Country Without a Representative**

In the War Conferences held at Versailles with our Allies the United States is without Official Representation. England, France, Belgium and Italy sent men to these conferences, having official connection with their respective governments, and those officials have power to act. Not so the United States.

President Wilson sent the mysterious Col. "John Doe" House as his personal representative, not the representative of his nation, who has no power to act for the country. He is instructed to make no agreement with the Representatives of our Allies, but merely to report matters to President Wilson, for his approval or disapproval.

This is humiliating to us as a nation, and discourteous to our Allies.

The Republicans believe that men should be named by the President and confirmed by the Senate in the regular manner to Officially Represent Our Country.

The members of the Wi-Hub club will meet tomorrow evening at the home of Mr. and Mrs. B. F. Miller for a pitch in dinner. The honored guests for the occasion will be Senator James E. Watson and Mr. and Mrs. W. D. Root.

Miss Phyllis Dean was a charming hostess Saturday evening for a pitch in dinner party at her home in North Main street. The dining table was beautifully adorned with a basket of fall roses and covers were laid for the following guests: Miss Marian Tittsworth, Miss Gladys Tittsworth, Miss Phyllis Clark of Cadillac, Mich., who is attending Miami University, and Wayne Daubenspeck, Paul Thorpe, who is in the S. A. T. C. at Wabash college, William Kelso and Clifford Mauzy.

Miss Gladys Tittsworth was a gracious hostess for a prettily appointed dinner party yesterday at her home in North Main street. A bouquet of asters formed the center piece for the dining room table. The guests for the occasion were Miss Phyllis Clark, of Cadillac, Mich., Miss Marian Tittsworth and Phyllis Dean.

A series of dinner parties has been given for the Rev. and Mrs. C. M. Yocum and son Cyrus, of Cincinnati, Ohio, who are spending several days in this city as the guests of friends. Mr. and Mrs. Hugh Mauzy entertained for them Saturday evening, Dr. and Mrs. Dean were host and hostess for them last Friday evening and Mr. and Mrs. Warder Wyatt honored them yesterday with a noon day dinner.

**Red Cross Notes**

The members of the Jackson township Red Cross will sew Wednesday afternoon at the Kenning school house instead of sewing at the different houses of the members. A large attendance is desired because new officers will be elected for the coming year.

The surgical dressing rooms are opened again for work after being closed for some time on account of the epidemic of the influenza.

### LAST CHANCE TO PAY TAXES

Tonight will be the last opportunity to pay the fall installment of taxes at the county treasurer's office in the court house. Collections Saturday amounted to \$23,422.50.

## BAD BREATH

**Dr. Edwards' Olive Tablets Get at the Cause and Remove It**

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

SHORTAGE IN SPRING

FERTILIZER EXPECTED

"Farmers are likely to experience another fertilizer shortage next spring," said County Agent Detrick today.

"Manufacturers ordinarily run at full capacity during February, March and April to put out their spring orders, but owing to the scarcity of labor, the only method of supplying the spring tonnage will be to continue through the winter with the depleted labor supply now on hand, to make and ship the goods as soon as cured.

"This method will necessitate the co-operation of the farmer who will be asked to accept an early shipment and store the fertilizer until planting time."

"Early shipment this year will not mean February, nor even January, but November and December.

"Fertilizer orders placed now mean assurance of delivery."

American women are right behind the U. S. troops in the trenches. Women nurses are now installed in hospitals 8 miles in the rear of the actual fighting line.

Many of our American women are unable to take up the duties of nursing at the front, but they should know how to take care of their own at home, and for this purpose no better book was ever printed than the Medical Adviser—a book containing 1,008 pages, and bound in cloth, with chapters on First Aid, Bandaging and care of Fractures, Taking care of the Sick, Physiology, Hygiene, Sex Problems, Mother and Babe, which can be had at most drug stores, or send 50 cents to the publishers, 663 Main St., Buffalo, N. Y.

The women at home, who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription.

Send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package. Lafayette, Ind.—"Favorite Prescription" was of great comfort to me during middle age. Whenever I felt melancholy, or had blinding dizzy spells or hot flashes, I would take it for a few days and it never failed to give me relief. I also used the "Healing Suppositories" and think they are splendid. About twelve years ago I wrote to the Faculty of the Invalids' Hotel, Buffalo, N. Y., for advice. I appreciate the advice given me. I always take pleasure in recommending Dr. Pierce's remedies and hospital."

—Mrs. Elsie A. Porter, 612 So. First St.

**Detroit Weatherproof Detachable Tops**

They are designed to afford motoring comfort in Winter as well as Fall and Summer.

They transform your Ford in a few brief seconds to a warm—absolutely storm-tight from windshield to rear window—brilliantly lighted limousine.

For the Ford driver who has considered winter driving a hardship rather than a pleasure, this patented all-weather top will be most acceptable as it eliminates instantly all his former hardships.

No bothersome side curtains to adjust in the biting cold or blinding snowstorms. The weatherproof-top becomes an integral part of your Ford at a very reasonable cost.

## DIRECT ENERGY TO GET OUT THE VOTE

Continued from Page One  
aliens who have declared their intention of becoming citizens of the United States will not be allowed to cast ballots. The state election board has ruled that enemy aliens will not be allowed to vote, although the Indiana constitution holds that any alien who has declared his intention of becoming a citizen may cast a ballot. The election board held that the constitution makers undoubtedly did not intend that alien enemies should be allowed to vote.

About 30,000 persons who cast ballots at previous elections will be prevented from voting tomorrow by this ruling, according to best estimates.

The total vote as a result will probably be considerably lighter than at previous congressional elections. Of the 40,000 Indiana men in the service of the government military branches, only about 7,000 have registered to vote and have already cast their ballots by mail.

Besides congressional elections, the entire membership of the state house of representatives and one-half of the members of the state senate will be chosen. State officials, including attorney general, auditor, superintendent of public instruction, secretary of state, geologist, and judges of state courts will be chosen.

## PREDICTS FIGHTING WILL END IN TEN DAYS

Continued from Page One  
The prediction of Mr. Toner that ten days will find hostilities at an end, cheered the audience immensely. The speaker commented on the rapidly changing tide of battle in Italy and on the west front in France and Belgium. Since Mr. Toner was on an inspection tour of the west and Italian fronts as a representative of Gov. Goodrich, he came well qualified to discuss intelligently the new developments in the war.

The meeting was held in the street in front of the honor roll board, which contains more than fifty names. More names are to be added to the board before it is complete.
